CONTENTS

Nafisa Anzum, Farhana Islam Khan, Mohammad Zabed Hossain, Mohammad Nurul Islam and Mihir Lal Saha - Isolation and identification of pigment producing bacteria from the Ratargul Swamp Forest soil 1-8
DOI: https://doi.org/10.3329/dujbs.v31i1.57911

Md Amir Hossain, Khandakar Taki Md Sadi, Nilima Jannat and MK Rahman - Combined effects of organic manures and chemical fertilizers on growth and yield of red capsicum (Capsicum annuum L.) grown at rooftop 9-18
DOI: https://doi.org/10.3329/dujbs.v31i1.57912

MM Islam, A Hossain and SC Mandal - Impacts of water quality on finfish and shellfish biodiversity in the river Meghna 19-27
DOI: https://doi.org/10.3329/dujbs.v31i1.57913

Md Wahiduzzaman, Md Faruque Hossain and Zakia Parveen - Assessment of environmental quality of an area adjacent to the relocated tannery industries at Hemayetpur, Bangladesh 29-43
DOI: https://doi.org/10.3329/dujbs.v31i1.57914

DOI: https://doi.org/10.3329/dujbs.v31i1.57915

Shabnur Chowdhury, Dibya Chakrabarty and MK Rahman - Influence of zinc and vermicompost on growth, yield and mineral nutrient accumulation in onion (Allium cepa L.) 59-66
DOI: https://doi.org/10.3329/dujbs.v31i1.57916

Ebtisamul Zannat Mim, Mohammad Firoj Jaman, Agj Morshed, Md Mahabub Alam and Nasrin Akter Bristy - Breeding biology of northern river terrapin Batagur baska in captivity in Bangladesh 67-78
DOI: https://doi.org/10.3329/dujbs.v31i1.57917

Niladri Paul, Molie Rahman, Atiqur Rahman and Taibur Rahman - Toxoplasma gondii enhances oxidative stress in pregnant women: A case-control study 79-91
DOI: https://doi.org/10.3329/dujbs.v31i1.57918
Md Shahinoor Rahman, Zhou Zhijin and Muhammad Kamal Uddin - Effects of affiliative and aggressive humor on creative thinking 93-104
DOI: https://doi.org/10.3329/dujbs.v31i1.57919

Abms Islam, ZH Khan, MS Hussain and MM Uddin - Scanning electron microscopic analysis of clays in the soils of lower atrai basin of Bangladesh 105-115
DOI: https://doi.org/10.3329/dujbs.v31i1.57920

Gazi Md Mohsin, Md Sajedur Rahman, Farruk Ahamed and Md Hasanuzzaman - Heterosis analysis in pumpkin (Cucurbitamos chataduch. ex. Poir) 117-136
DOI: https://doi.org/10.3329/dujbs.v31i1.57921

Subhadeep Ganguly and Smaranika Pattnaik - Comparison between the predicted and experimental L-glutamic acid production by free cells of Corynebacterium glutamicum x680 using mathematical model 137-146
DOI: https://doi.org/10.3329/dujbs.v31i1.57922

Monoara Begum, Md. Nasimul Gani and Md. Didar-Ul-Alam - Effects of textile wastewater on growth and yield components of rice (Oryza sativa L.) 147-157
DOI: https://doi.org/10.3329/dujbs.v31i1.57923

Pranami Chowdhury, Shamim Shamsi, Hasna Hena Begum and Md. Abul Bashar - Integrated management of seed borne pathogenic fungi of BRRI 29 rice variety 159-168
DOI: https://doi.org/10.3329/dujbs.v31i1.57924

DOI: https://doi.org/10.3329/dujbs.v31i1.57925

Mumtahina Mohammad, Nahid Sultana, Anwara Begum and Md. Niamul Naser - Seaweed (Hypnea sp.) supplementation in feed may play role in boosting immunity of nile tilapia (Oreochromis niloticus) 177-181
DOI: https://doi.org/10.3329/dujbs.v31i1.57926

Md. Shahanur Hossain, Graham E. Powell and Mohammad Mahmudur Rahman - Adaptation of the brain injury questionnaire of sexuality into bangla and initial findings from a sample of bangladeshi traumatic brain injury patients 183-191
DOI: https://doi.org/10.3329/dujbs.v31i1.57927

Md Inja-Mamun Haque and Mahmud Hasan - Optimization of culture media ingredient and inoculum on the yield of tubifex worms at pilot scale level 193-201
DOI: https://doi.org/10.3329/dujbs.v31i1.57928

INSTRUCTIONS TO CONTRIBUTORS

1. The Dhaka University Journal of Biological Sciences publishes full papers and short communications of original research on all aspects of biological sciences that make a sufficient contribution to biological knowledge.

2. Papers should be in English, composed double-spaced and on one side of the paper (30 × 21 cm), preferably A4 bond paper, with sufficient margin on all sides, and should not exceed ten typed pages (approximately 2500 words) in case of full papers and five typed pages including tables and figures in case of short communications. A paper is received on the undertaking by the author(s) that it has not been and will not be published elsewhere; and that it may be edited, where necessary, for brevity, clarity, and elimination of redundancy.

The cover letter of an article should be signed by all co-authors.

3. A paper should have: (a) Title page (Page 1) which should include (i) Title of the paper; (ii) Name of the author(s) in full; (iii) Complete address of the institution, laboratory where the work was performed; (iv) Running title; (v) Key words; and (vi) name, address and e-mail id along with telephone number of the author to whom all correspondence (galley proofs, reprint requests, etc.) may be made.

The title page should be followed by the Abstract page (Page 2). A full paper should have an abstract preferably within 200 words. The abstract should only include objective and summarized results.

The Abstract, should be followed by separate pages, Page 3 onwards wherein Introduction, Materials and Methods, Results and Discussion, Acknowledgements (if any) and References should be included consecutively.

4. Tables should be typed on separate sheets and their approximate positions should be marked in the text. Foot notes should be avoided as far as possible.

5. Figures should be prepared in line drawings in indelible ink with standard stencils. Original legible machine-charts or data sheets may be used. Figures should be uniform to all the same degree of reduction and their lettering (done with lettering aids) should be 4-6 mm in height to allow legibility upon reduction.

Photographs should be of high-contrast glossy, black and white prints.

All original figures, plates, photographs should be numbered on the back with authors' names and title of the paper, indicating top side by using a soft pencil.

Legends to the figures, plates or photographs should be typed on separate sheets of paper and submitted in triplicate with numbers given for each legend.

6. Use of metric system and the Celsius scale (°C) is mandatory.

7. References. The references actually cited in the text should be listed. References in text should be cited in parenthesis numerically like (1), (2-5), etc.

Journal:

Books:

8. Short communications must not exceed FIVE type-written double spaced pages including one table and/or one illustration, if any. The list of references at the end of the paper should not exceed ten. The presentation of short communications should be continuous and paragraphed, without headings such as Introduction, Materials and Methods, Results and Discussions, etc.

9. Submission on diskette. Authors must submit a diskette/CD in MS words containing the final version of the text; this should be in addition to, not as a replacement for, the required two copies.

10. Final galley-proofs will be sent to the authors for corrections. The corrected proofs should be immediately returned to the Editor. Authors should not insert new matter into proofs.

Authors will receive 15 reprints as free copy.

11. Papers should be submitted in duplicate to: Professor Dr. Mihir Lal Saha, Editor, The Dhaka University Journal of Biological Sciences, Department of Botany, University of Dhaka, Dhaka-1000, Bangladesh.
