Editorial

Many researchers are conducting research in the field of nutrition in Bangladesh for improving health and thereby quality of life as well. We have limited scope for publishing the research findings, so quality manuscripts are not adequately available. To cater this need Bangladesh Journal of Nutrition is being published half-yearly from the Institute of Nutrition and Food Science, University of Dhaka, Bangladesh.

Articles on important aspects of nutrition suitable for developing countries have been included in this issue.

Due to various reasons like accident of gas explosion devouring five lives at this Institute, and many other causes beyond our control we could not publish the journal in time. Some technical errors might have been crept into, which we hope with the judicious suggestions from the readers will be improved in future.

Editor

Information for Contributors

The Bangladesh Journal of Nutrition is published in June and December of the year by the Institute of Nutrition and Food Science, University of Dhaka, Dhaka-1000, Bangladesh.

The journal publishes original research articles, review articles, short communications dealing with the aspects of nutrition and letters to the editor.

Manuscripts

Articles written in English are accepted on the understanding that they are subject to editorial revision. Manuscripts should be submitted in quadruplicate, type written double spaced, on one side of good quality paper.

A covering letter from the author who will be responsible for correspondence is essential. Articles are accepted for publication only when they are submitted solely to this journal. The top page should include title with name and address of the contributor(s). Introduction, Materials and Methods, Results, Discussion, Summary, Acknowledgements and References should be started from second page.

References

References should be indicated by consecutive numbers in superscripts in the text and listed sequentially in the bibliography. Examples of format of (1) a periodical and (2) a book follow:

- (1) Albanese A A, Orto L A and Zavattare N. Biochemical significance of plasma ammonia nitrogen in man with comparison of other criteria of protein nitrogen, *Metabolism* 1958; 7: 256.
- (2) Longenecker J.B. *Newer Method of Nutritional Biochemistry* (A.A. Albanese, editor), Academic Press Inc., New York 1963, p. 113.

Nomenclature and Abbreviations

1. Standard abbreviations such as mg, C, F, should be used.
2. Terms such as electrocardiogram, ultra-violet should be written in full first time followed by accepted abbreviation (ECG, UV).

Tables

Tables should be carefully constructed so that the data represented may be understood easily. All tables must be referred to in the text by arabic numerals in consecutive order as Table 1, Table 2 etc. Every table and every column should be supplied with an appropriate heading. The table number and the title should be placed in a continuous heading above in the data presented.

Figures

All drawings should be made with China ink on white drawing paper. Figures should be referred to in the text in consecutive by arabic numerals as Fig. 1, Fig. 2 etc. Original drawings are preferable but photographic prints are also accepted if clear, well printed on glossy paper with strong contrasts.

Submission

All communications related to the journal should be addressed to the Editor, Bangladesh Journal of Nutrition, Institute of Nutrition and Food Science, University of Dhaka, Bangladesh.

Subscription Rate

Bangladesh : Taka 50.00 including postage ; Other countries U.S. \$ 10 including postage.
